SUMMARY

Frontend Developer with 4+ years of experience building responsive, production-ready web applications. Strong in React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Supabase, REST APIs, UI development, performance improvement, SEO, and converting UI/UX designs into clean, scalable front-end features.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, HTML, CSS, Tailwind CSS

Backend & Database: Supabase, Firebase, REST API, PostgreSQL

Tools & DevOps: Git, GitHub, Git Bash, Vercel CI/CD, npm, Vite, Backlog (Nulab), Postman

PROFESSIONAL EXPERIENCE

Transcosmos Asia Philippines | Front-end Developer | 04/2022 - 05/2026 | Philippines

- Maintained and enhanced the Duskin Health Rent web application, a Japan-based platform, with focus on performance, stability, SEO, and smooth user experience.
- Built responsive pages and reusable UI components from UI/UX designs, following scalable front-end practices and production code standards.
- Improved existing features by fixing bugs, resolving UI issues, optimizing performance, and enhancing usability across production pages.
- Collaborated with UI/UX designers, QA, and project stakeholders to deliver reliable front-end solutions within Agile workflows using Backlog (Nulab).

University of the East - Manila | IT Support / Desktop Maintenance | 08/2014 - 12/2014 | Philippines

- Provided desktop maintenance, software installation, system formatting, troubleshooting, and documentation support for staff and faculty computers.

PROJECTS

StudyMate | Full-stack study platform | Next.js, Supabase | 04/2026 - Present

- Built a responsive full-stack web application with authentication, real-time database features, and Supabase row-level security (RLS).
- Developed smart notes, flashcards with spaced repetition, study planner, group study rooms, and progress tracking for Filipino students.
- Designed a student-friendly pricing model with free and premium subscription tiers.

Duskin Corporate Website | Japan-based corporate website | 06/2022 - 05/2026

- Developed assigned pages from scratch based on UI/UX design specifications provided by the Japan team.
- Ensured responsive layouts, pixel accuracy, consistent design implementation, and alignment with Japanese web standards.

DDuet - Duskin Members Site | Japan-based customer membership platform | 06/2022 - 05/2026

- Built membership pages from design specifications and maintained consistent UI aligned with Duskin brand standards.
- Supported code quality, cross-browser compatibility, and production-ready front-end delivery.

EDUCATION

Bachelor of Science in Information Technology | University of the East - Caloocan | 06/2008 - 12/2012 | Philippines
