SUMMARY

Frontend Developer with 4+ years of experience building and maintaining responsive, user-friendly web applications. Skilled in HTML, CSS, JavaScript, and modern UI development practices, with strong experience improving existing systems and developing features from scratch. Experienced with React.js, TypeScript, Supabase, and PostgreSQL for building scalable, data-driven web applications. Currently focused on advancing expertise in React.js to deliver efficient and high-performance web solutions.

PROFESSIONAL EXPERIENCE

Front-end Developer, *Transcosmos Asia Philippines* 04/2022 – 05/2026 | Philippines

Led the maintenance and enhancement of the Duskin Health Rent web application, a Japan-based company, ensuring strong performance, stability, SEO optimization, and a smooth user experience. Built new pages and reusable UI components from scratch based on UI/UX designs, focusing on responsiveness, scalability, and search engine best practices. Improved existing features by fixing bugs, resolving performance issues, and enhancing overall usability. Collaborated with UI/UX designers to deliver production-ready frontend solutions with consistent code quality. Supported Agile workflows using Backlog (Nulab) for task tracking and timely feature delivery.

IT Support / Desktop Maintenance, 08/2014 – 12/2014 | Philippines
University of the East - Manila

Provided technical support including desktop maintenance, software installation, system formatting, and troubleshooting. Assisted in managing office systems and documentation to ensure smooth daily operations of staff and faculty computers.

EDUCATION

Bachelor of Science in Information Technology, 06/2008 – 12/2012 | Philippines
University of the East - Caloocan
