SUMMARY

Senior Frontend Developer with 4+ years of experience building responsive, production-ready web applications. Proficient in React.js, TypeScript, Next.js, and Supabase — with strong experience in UI development, system improvement, and delivering features from scratch using modern web practices.

PROFESSIONAL EXPERIENCE

- Transcosmos Asia Philippines**, Front-end Developer04/2022 – 05/2026
Philippines
- Led the maintenance and enhancement of the Duskin Health Rent web application, a Japan-based platform, ensuring strong performance, stability, SEO optimization, and a smooth user experience.
 - Built new pages and reusable UI components from scratch based on UI/UX designs, focusing on responsiveness, scalability, and search engine best practices.
 - Improved existing features by fixing bugs, resolving performance issues, and enhancing overall usability.
 - Collaborated with UI/UX designers to deliver production-ready frontend solutions with consistent code quality.
 - Supported Agile workflows using Backlog (Nulab) for task tracking and timely feature delivery.
- University of the East - Manila**, IT Support / Desktop Maintenance08/2014 – 12/2014
Philippines
- Provided technical support including desktop maintenance, software installation, system formatting, and troubleshooting. Assisted in managing office systems and documentation to ensure smooth daily operations of staff and faculty computers.

EDUCATION

Bachelor of Science in Information Technology, University of the East - Caloocan06/2008 – 12/2012
Philippines

TECH STACK

Frontend	Backend & Database	Tools & DevOps

		Postman

AWARDS & ACHIEVEMENTS

Most Improved Coders Award, Digital Experience Department, Transcosmos Asia Philippines

Recognized for remarkable improvement in coding skills and QA performance throughout project development.

Most Consistent Coders Award, Digital Experience Department, Transcosmos Asia Philippines

Recognized for outstanding and consistent performance, delivering reliable, high-quality code throughout multiple frontend development projects.

Level 3 Coder Certification, Digital Experience Department, Transcosmos Asia Philippines

Successfully passed the Level 3 Coder examination, demonstrating advanced proficiency in frontend development.

Level 2 QA Certification, Digital Experience Department, Transcosmos Asia Philippines

Successfully passed the Level 2 QA examination, demonstrating solid understanding of quality assurance processes in software development.

PROJECTS

StudyMate  , Full-stack study platform built with Next.js and Supabase — featuring smart notes, flashcards, group study rooms, and progress tracking for Filipino students. 04/2026 – Present

- Built a responsive, full-stack web application using Next.js and Supabase with authentication, real-time database, and row-level security (RLS).
- Developed key features including smart notes, flashcards with spaced repetition, study planner, group study rooms, and progress tracking.
- Designed and implemented a student-friendly pricing system with free and premium subscription tiers.

Duskin Corporate Website  , Japan-based corporate website for one of Japan's leading franchisors, built from scratch following width design specifications provided by the Japan team. 06/2022 – 05/2026

- Developed and implemented specific pages from scratch based on UI/UX designs provided by the Japan team.
- Ensured responsive layout, pixel-perfect accuracy, and consistent design across all assigned pages.
- Collaborated with the team to meet Japanese web standards and design specifications.

DDuet — Duskin Members Site  , Japan-based customer membership platform for Duskin, built from scratch following width design specifications provided by the Japan team. 06/2022 – 05/2026

- Developed specific membership pages from scratch based on design specifications from the Japan team.
- Ensured responsive and consistent UI aligned with Duskin's brand and Japanese web standards.
- Maintained code quality and cross-browser compatibility throughout development.
